The Warranty Commencement Date shall be the earlier date between:

- i) the commissioning date, or
- ii) six (6) months after the product is shipped from Sigenenergy factory

Performance Warranty

SIGENERGY warrants that the battery system retains either at least sixty percent (60%) of Usable Energy for ten (10) years after the date of the initial installation, or the number of cycles as per the table below. Whichever comes first:

Covered Product	Usable Energy (kWh)	Charge/Discharge Ratio(C)	Number of warranty cycles
SigenStack BAT 12.0	11.70	0.5	6000
		0.5-1	4200

Note:

The ambient temperature assumption is constant for every cases and is equal to $25^{\circ}\text{C} \pm 5^{\circ}\text{C}$. Performance under non-typical working conditions, please refer to the relevant documents on performance commitment benchmarks, which are not used as product warranty standards.

In order to provide the advanced warranty, SIGENERGY will update your equipment with a remote firmware upgrade from time to time. These remote upgrades may briefly disrupt the operation of the appliance. By connecting your equipment to the internet, you agree that SIGENERGY may update the firmware of your equipment's features without further notice. If your equipment is disconnected from the Sigen Cloud for longer than 6 months, we may not be able to provide important remote firmware upgrades. In this case, even if we can't honor the advanced warranty for the above reasons, we will always honor the basic warranty, subject to the exclusions and limitations set out in this Warranty.

Warranty Extension

SIGENERGY provide the warranty extension service. The customer can purchase the extended warranty only when the plant is connected to Sigen Cloud.
